

# KOKATHA MINING SERVICES

## JOB SPECIFICATION

Job Title:	Plant Operator (Water Cart) – Road Maintenance
Classification:	Civil Construction Worker - Level 4
Reporting to:	Team Leader – Road Maintenance
Hours:	10 hours day shift
Location:	Carrapateena Mine areas

---

## POSITION OVERVIEW

This position with Kokatha Mining Services will initially see the Plant Operator as part of a road maintenance team responsible for repairs and maintenance of the roads network associated with the OZ Minerals Carrapateena mine site. It is a DIDO role on a 5/2 roster, where Monday to Friday is spent accommodated at Carrapateena and travel to/from Carrapateena is provided out of Port Augusta.

The role includes a full range of duties with the majority of the time being spent operating plant and machinery to perform road maintenance tasks.

OZ Minerals Carrapateena mine is accessed from the Stuart Highway by the “Southern Access Road” (SAR) where a significant road maintenance regime is established. Approximately 50km of the SAR is a gazetted public road (from the Stuart Highway to the Pernatty Homestead), under the care and control of the Commissioner of Highways. OZ Minerals, under a current Deed with the Commissioner, operate and maintain the public section of road, as well as the private section of the road.

In addition to the Southern Access Road, OZ Minerals contracts Kokatha Mining Services to maintain and/or improve other areas of the Carrapateena road network including the Western Access Road; the access road to the radial and northern bore fields; truck turnaround areas; carparks at site; laydown areas; and any other road, track or area directed by OZ Minerals from time to time.

---

## **1. Activities**

The Plant Operator will perform a number of activities on a daily basis, under direction from the Team Leader. These activities will include but are not limited to the following:

- Carry out daily pre-start checks for plant and vehicles
- Conduct regular safety checks on plant, machinery and work procedures.
- Operation of 30,000 litre water cart in prime mover/semitrailer combination
- Other machine operating work including general road maintenance with self-propelled multi tyred roller, loader, semi-tipper combination
- General labouring duties associated with maintenance of roadside infrastructure
- Use of traffic control signage and management of traffic movements throughout the worksite
- General maintenance and cleaning of vehicles, plant and equipment. Maintaining work areas in clean and tidy condition.
- Other duties as may be required from time to time to fulfil the needs of the Road Maintenance Contract at Carrapateena (or other contracts involving road maintenance)
- Participate in safety training, safety audits and contribute to ongoing reviews of safe systems of work.

## 2. Outcomes required

- Road maintenance to be conducted in accordance with OZ Minerals contractual requirements.
- Vehicles, plant and equipment are kept clean and properly maintained
- Attendance/participation at toolbox meetings and pre-start meetings on the worksite
- Contribution to continuous improvement of the Road Maintenance Contract through observing potential needs and opportunities for road maintenance across the site.

## 3. Qualifications

- HC Licence
- Loader Ticket
- Roller Ticket
- Excavator Ticket
- Work Zone Traffic Management Ticket

## 4. Skills

- Basic mathematics skills
- Legible handwriting
- Attention to detail
- Ability to develop sound relationships with customers and contractors
- Excellent organisation skills

## 5. Personal Attributes

- Be well presented and courteous in approach to customers, contractors and other KMS employees.
- Have a reasonable level of physical fitness
- Display a proactive approach to the role, and be punctual in attendance.
- Ability to work unsupervised
- Ability to prioritise tasks
- Experience in working in remote areas and living away from home.

## 6. Reports to

KMS Team Leader – Road Maintenance

## 7. Selection Criteria
